## **COGECO COMMUNICATIONS INC. ANNOUNCES ITS INTENTION TO ESTABLISH A NORMAL COURSE ISSUER BID**

**Montréal, February 27, 2019** – Cogeco Communications Inc. (TSX: CCA) (“Cogeco Communications” or the “Corporation”) today announced its intention to establish a normal course issuer bid. This news follows the sale of Cogeco Peer 1 Inc. which was announced today (the “Transaction”). Subject to the approval of the Toronto Stock Exchange (the “TSX”), the normal course issuer bid is to be implemented after the closing of the Transaction.

The Corporation currently expects to use a significant portion of the net proceeds from the Transaction to repay amounts outstanding under the Corporation’s term revolving facility and, subject to the approval of the TSX, to repurchase subordinate voting shares (“Subordinate Shares”) under a normal course issuer bid.

The Corporation intends to file a notice of intention with the TSX to commence a normal course issuer bid for its Subordinate Shares shortly before the closing of the Transaction. The Corporation will seek the approval of the TSX to repurchase for cancellation, at its discretion during the 12-month period following the approval of the TSX, up to 10% of the “public float” of the Corporation’s issued and outstanding Subordinate Shares (as will be calculated in accordance with the rules of the TSX), which would represent approximately 1.86 million Subordinate Shares as of the date of this press release. Purchases under the normal course issuer bid would be made by means of open market transactions and would be conducted through the facilities of the TSX or Canadian alternative trading systems, if eligible, and would conform to their regulations. The price to be paid by the Corporation for any Subordinate Share would be the market price at the time of acquisition, plus brokerage fees where applicable.

The actual number of Subordinate Shares, if any, that may be repurchased under the normal course issuer bid and the timing of any such repurchases, will be determined by the Corporation, subject to the limitations imposed by the TSX. There cannot be any assurance that the normal course issuer bid will be implemented and, if implemented, how many Subordinate Shares, if any, will ultimately be acquired by the Corporation thereunder.

The Corporation currently believes that the purchase of its Subordinate Shares under a normal course issuer bid would be an appropriate and desirable use of a portion of the excess cash generated through the Transaction to increase shareholder value and provide additional investment returns to shareholders.
