For immediate release

### **COGECO CONNEXION UNVEILS ITS NEW TELEVISION PACKAGES** *A More Flexible Offering Designed to Meet Evolving Customer Expectations*

**Montréal, March 1, 2016** – Cogeco Connexion is proud to unveil today new TV packages for its consumer market in Ontario and Québec. Its offering has been completely redesigned and revamped to enable greater choice, thereby meeting evolving expectations in terms of personalized content selection. Existing Cogeco Connexion customers can continue to benefit from their current packages.

“We have put a lot of thought into the redesign of our TV packages, conducting an in-depth analysis of our customers’ needs and their evolving content consumption habits, and I am very proud to launch our new offering today,” said Louise St-Pierre, President and Chief Executive Officer, Cogeco Connexion. “We are confident that our customers will positively welcome our renewed offering which combines value and flexibility, while being highly competitive in the marketplace.”

#### **Basic Channels**

Cogeco Connexion now offers an entry-level package named “Basic Channels” which is comprised of local and regional over-the-air Canadian stations, mandatory distribution channels, as well as community and educational channels. Cogeco Connexion has also decided to include affiliates of conventional American networks in this package, to exceed customers’ expectations. Subscription to the “Basic Channels” package is a requirement to access any other packages or channels.

#### **A personalized selection for greater flexibility in optional packages**

Customers can create their own packages of 10, 20, 30 or 40 additional channels in Ontario, or of 10, 15, 20 or 30 channels in Québec, by choosing from a wide array of Canadian, American and foreign channels. Cogeco Connexion’s “My Mix” package allows customers to design a tailored package based on their interests.

#### **Ready-to-watch packages for greater value**

Cogeco Connexion has created two ready-to-watch packages with higher added value for customers looking for simplicity and the best quality-to-price ratio. The “Perfect Mix” and “Ultimate Mix” packages include the most popular channels such as *Sportsnet*, *TSN* and *AMC* in Ontario, and *TVA Sports*, *RDS* and *Canal Vie* in Québec. The “Ultimate Mix” package offers even more value with a rich selection of movie channels, including *The Movie Network* and *Super Channel* in Ontario, and *Super Écran* and *Cinépop* in Québec.

#### **A wider selection of standalone channels**

Cogeco Connexion has expanded the availability of its standalone channels: close to 110 standalone channels are now available in Ontario, and close to 60 standalone channels are now offered in Québec. Customers can therefore benefit from an enriched selection, allowing them to pay for the channels they really want to watch. Cogeco Connexion is therefore going over and above what was

requested on March 1, 2016, as per the *Let's Talk TV: A World of Choice* policy.

**A new offering tailored to business customers**

At the same time, Cogeco Connexion is unveiling a new TV offering for its business customers, including an entry-level package as well as tailored packages based on industry verticals.
