# Cogeco Connexion Enhances Its Internet Security Offering

*Regardless of their mobility provider, Cogeco Connexion now protects its customers' mobile devices*

**Montreal, February 7, 2017** – To mark Safer Internet Day, Cogeco Connexion is proud to announce the launch of a new, more complete and more flexible Internet security offering that also protects its customers' mobile devices.

Cogeco Connexion introduces two new Internet security packages: the **Cogeco Security** package, a complete formula included with all high-speed Internet packages and the **Cogeco Security GO** package, a suite of premium security services allowing consumers to carry out an unlimited number of downloads on their computers and mobile devices.

"The exponential growth of online commerce and entertainment comes with a greater risk of intrusion or fraud requiring cybernauts to be much more vigilant when it comes to security," stated Daniel Boisvert, Vice-President, Marketing and Innovation, Cogeco Connexion. "Our new Internet security offering reflects our unrelenting desire to meet our customers' ever-changing needs and our commitment to offering them the best possible Internet experience."

Customers subscribing to Cogeco Connexion's high-speed Internet packages already benefit from this enhanced security offering at no additional cost. For just $5.99 per month, they can also opt for the **Cogeco Security GO** package, offering coverage that extends to an unlimited number of devices including all their mobile devices. Regardless of the customer's cell service provider, Cogeco Connexion protects all the mobile devices of a given family (mobile phones, e-tablets, etc.) for greater peace of mind.

Driven by F-Secure, a world-class player in the field of cyber security, **Cogeco Security** and **Cogeco Security GO** provide:

- Protection against viruses, spyware, phishing emails and other online threats
- Protection against identity theft
- Protection against fraud, including banking protection
- Parental control
- Online browsing protection including social media sites
- Monitoring and protection of home Wi-Fi networks
- Continuous automatic updates without slowing devices
- Availability on PC, MAC, Android and iOs devices.
